

Breaking Up is Hard to Do

As the saying goes, “breaking up is hard to do”. When you're a celebrity under constant media scrutiny, parting ways is that much tougher, and especially so, when minor children are involved.

Infidelities, substance abuse issues, custody battles, and bitter arguments all tend to become public knowledge, making the experience for the celebrity, and their children all the more emotionally taxing and challenging.

Navigating the entourage of individuals associated with the celebrity becomes critical to crafting effective representation, including implementing cohesive media messaging, and addressing significant legal issues of privacy and confidentiality. The nature of celebrity's lives and their earnings over their lifetimes also result in unique and complex revenue streams which must be calculated when determining spousal and child support. Additionally, dealing with unique custody issues are often present and of paramount concern to celebrity clients.
